Subject: RE: D4794-041

Hi Eric,

It is required to be ground smooth the fillet weld sections and the 4 holes. Use this e-mail to attach to W/O for instructions. A revision to the project is come in soon, so by then I will add the instructions to this drawing.

Thanks,
Roberto

Roberto

As you can see in the attached pictures I have some discrepancies with two different batches of the same parts. One strut has the welding ground smooth and the other has the welding exposed.

Your drawing calls for the weld not to be ground at all on the strut (neither the weld on the dowel pin).

Which is correct? Please let me know.

Thanks

Eric Downing
